

ARROBRITE SONIC BATH BRIGHTENER

General Characteristics:

Appearance:	Blue Liquid
Chemical Composition:	Alkaline Mix
Specific Gravity:	1.15
Solubility in Water:	Readily Soluble
pH:	11 - 13
Foaming Nature:	Low

Application: *

It is recommended that Arrobrite Sonic Bath Brightener be added to bath at between 3% and 5% concentration. Recommended temperature is 140 - 150° F. Increasing concentration or temperature can accelerate cleaning power, but exceeding the above ranges may discolor some metals, especially zinc, magnesium, and aluminum.

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.

Special Features:
