## Stainless Steel Cleaner

### General Characteristics:

Appearance:	Clear Colorless Liquid
Solubility in Water:	Readily Soluble
Lbs. / Gal.	8.68
pH:	5 - 7

### Application: \*

Stainless Steel Cleaner should be diluted with water at least 10:1 for typical cleaning of oils and greases. The product should be applied with a rag or through a spray bottle. Cleaner should be completely rinsed from surface after cleaning. Stainless Steel Cleaner is designed to clean and dissolve the heaviest oils from steel, copper, and brass. This product should be used only on equipment, which is not in direct contact with food.

\*As conditions may vary, all dosages and guidelines are merely suggested starting points. It is recommended the user determine the proper operating conditions for their system.

### Special Features:

- Aggressive Cleaner
- Removes Tough Oil and Grease Deposits
- Removes Rust & Corrosion
- Hot or Cold Water Compatible
