

## ASPHALT RELEASE AGENT

### General Characteristics:

Appearance:	Clear Red Liquid
Chemical Composition:	Hydrophilic Solution
Solubility in Water:	Readily Dispersible
pH:	12.0 ± 0.5
Foaming Nature:	None

### Application: \*

Degrease the surface to be coated with a strong degreaser such as Industrial Citrus Degreaser or KJ 614. Apply the Asphalt Release Agent by spraying, brushing or rolling on the surface to be protected. Load asphalt on top of coated surface. The number of loads between coats of release agent depends on the temperature and consistency of the loads.

\*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.

### Special Features:

- Cleaner/Safer than Diesel Fuel or Turpene-Based Products
- Inexpensive to Use
- Environmentally Friendly
- Highly effective

### Uses:

Designed Specifically to Prevent the Adhesion of Asphalt to Metal Surfaces.

### Packaging:

1 Gallon	5 Gallon	15 Gallon
55 Gallon	275 Gallon	Bulk
