

## BLUE MAGIC CLEANER

### General Characteristics:

Appearance:	Clear Blue Liquid
Chemical Composition:	Alkaline Solution
Solubility in Water:	Readily Soluble
Lbs. / Gal.	9.09
pH:	10 - 12
Foaming Nature:	Low to Medium

### Application: \*

Blue Magic Cleaner can be used at full strength to clean dirty, greasy, oily, or ink-soiled surfaces. For pressure wash systems, a dilution of 35 to 50 parts water to one part Blue Magic Cleaner offers effective cleaning without excessive foaming. For routine cleaning, involving glass windows, tabletops, mirrors, sinks, and other common daily cleaning uses, ArroChem recommends a dilution of two ounces Blue Magic Cleaner per gallon of water. For vinyl upholstery, refrigerators, stoves, trucks, buses, aluminum or painted surfaces, shower stalls, stainless steel equipment, flues, conveyors, and mild stains, a dilution of 8 ounces product per gallon of water provides stronger cleaning power. For applications requiring heavy cleaning on such surfaces as concrete, printing equipment, motors, air conditioners, and welding equipment, use a concentrated solution of 16 ounces (one pint) Blue Magic Cleaner per gallon of water.

\*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.

### Special Features:

- Contains No Ammonia
- Contains Rust Inhibitor
- 1000's of Uses
- Concentrated Formula Saves \$\$

### Recommended For Cleaning:

- Windows, Sinks, Countertops
- Painted Surfaces & Tile
- Pressure Washing
- Motors, Heavy Equipment

### Packaging:

1 Gallon	5 Gallon	15 Gallon
55 Gallon	275 Gallon	Bulk
