### Application: \*

Industrial Citrus SC is recommended for normal surface cleaning at 133:1 dilution with water. To dilute, pour 5 gallons of Industrial Citrus SC into a 55 gallon drum and fill with water. The product can then be diluted further between 5:1 to 20:1. The dilution can be accomplished manually, or by the use of a proportioner (available from Arrochem) that dilutes the material to the desired strength. See product directions or contact Arrochem technical staff for complete mixing and use instructions.

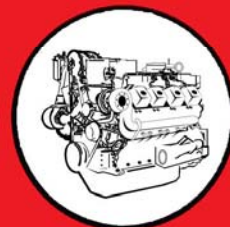

\*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.
