

KJ 101 SUPER CONCENTRATE

LIQUID FLEXO INK CLEANER

General Characteristics:

Appearance:	Green Translucent Liquid
Chemical Composition:	Alkaline Cleaner
Solubility in Water:	Readily Dispersible
pH, 1% Solution:	11 - 12
Wetting:	Rapid

Application: *

First Pour (2) gallons of Part "A" and (2) gallons of Part "B" into a clean 55 gallon drum and blend thoroughly with enough tap water to fill the drum. Hot, warm, or cold water may be used. The product may then be further diluted based on its intended use:

Dilute 20:1 with tap water for routine cleaning operations. Dilute 4:1 for tough cleaning. May be used full strength if necessary for spot-cleaning problem areas, or for removing dried flexo or gravure ink from printing systems.

As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.

Special Features:

- Rapidly Emulsifies Flexo Ink in Dried or Fluid Form
- Contains Lubricants & Rust Inhibitors
- Safe for Anilox, Ceramic, and Rubber Rollers
- Powerful and Cost Effective
- Also Available in Regular Strength Form.

For Removing:

- Water Based Inks
- Paper Residue
- Oils
- Dirt, Grease, Grime

Packaging:

1 Gallon 5 Gallon 15 Gallon
55 Gallon 275 Gallon Bulk
