

TIRE LUBE GEL

General Characteristics:

Chemical Composition:	Water Based Synthetic
Viscosity:	1600 cps (25°C, 1 atm)
Solubility in Water:	Readily Dispersible
Ionic Nature:	Anionic

Application: *

Tire Lube Gel should be used at full strength for optimal lubricity. It may be diluted up to 4:1 with water as necessary, depending on the application. Tire Lube Gel may be brushed or sprayed (after dilution) onto the surface needing lubricity. As product is water-based, it should not be used at temperatures above 85°C (185°F) or below 5°C (40°F).

Special Features:

- Water Based
- Contains No Oil Or Animal By-Products
- No Hazardous Ingredients

Uses:

Specifically designed to Provide Lubricity in all tire mounting applications.

*As conditions vary, all dosages and guidelines are merely suggested starting points; it is recommended the user determine the proper operating conditions for his/her system.

Packaging:

1 Gallon	5 Gallon	15 Gallon
55 Gallon	275 Gallon	Bulk
